ANNUAL REPORT

2025-2026

OUR GOAL

Since our beginnings in 1991, we have embraced the principle that education is a transformative process that touches the lives and hearts of both those who teach and those who learn.

Today, thirty-five years later, we reaffirm our commitment to this valuable principle as the foundation for our students to achieve a meaningful and productive life. We continue to develop high-quality learning opportunities designed to meet the needs and interests of every participant, while contributing to a better quality of life and the well-being of our community.
